

Manufacturing Day Fullerton College

October 4, 2024

8:45am to 1:30pm

Fullerton College

321 E. Chapman Avenue, Fullerton CA 92832

Join us for annual MFG Day at Fullerton College! Explore, engage in hands-on demonstrations, and tour several programs in Manufacturing as we highlight careers in these areas:

Fashion Design & Merchandising

The Fashion Design program provides students with hands-on experience, coupled with a strong theory-based education, to acquire job skills necessary to gain entry-level positions in fashion and apparel industry careers.

Machine Technology

The Machine Technology program provides up-to-date curriculum in current theoretical, technological and practical experience necessary for employment and advancement in the industry.

Printing Technology

Offering hands-on training on modern, high-speed equipment the printing tech program offers courses in electronic pre-press, packaging production and design, flexography, offset presswork and screenprinting.

Welding Technology

The Welding program provides students with an understanding of the welding industry's requirements for employment, and helps them acquire entry-level job skills.
