

CURIOUS ABOUT CYBERSECURITY?

FIND OUT IF IT'S FOR YOU AND BUILD SKILLS THAT MATTER.

WHAT YOU'LL DO

- Learn how cyber attacks happen — and how they're stopped
- Practice real-world security scenarios used by companies
- Explore technical AND non-technical cybersecurity roles
- Work with industry professionals, not just textbooks

WHO IT IS FOR

This program is a great fit for you if you:

- Are curious about technology, problem-solving, or how things work
- Want to explore a high-paying, in-demand career field
- Aren't sure what you want to do yet — and want real exposure

WHY IT'S WORTH IT

- Learn directly from professionals in the field
- Build skills you can talk about in college or job interviews
- Get job-ready training in cybersecurity

PROGRAM DETAILS

June 16 – August 6
Tuesday–Thursday
9:00–11:00 AM
