

Join the GRIT Class of 2027!

What is GRIT? GRIT was founded in 2017 in response to the increasing shortage of cybersecurity professionals worldwide, particularly women. GRIT's goal is to help you understand what types of opportunities are available, what you can aspire to, and to encourage you to consider careers in technology - girls can then re-imagine their tomorrow!

GRIT is an opportunity to:

- *Make new friends*
- *Learn about technology and cybersecurity*
- *Build confidence and community*
- *Develop new skill sets*

GRIT is a national program and will meet one day a month from January to April 2027.

APPLY SOON!!
